Summary

Full Stack Developer specializing in React.js and Node.js, with hands-on experience building production-ready MERN applications. Proven ability to design scalable RESTful APIs, integrate authentication and payment systems, and deploy cloud-based solutions. Strong problem-solving skills with a solid foundation in modern web development and backend architecture.

Skills

Languages : C, C++, Java, JavaScript, TypeScript (Basics)

Frontend : HTML, CSS, Bootstrap, Tailwind CSS, React.js (Hooks, Context API, Component Architecture)

Backend : Node.js, Express.js, RESTful APIs, JWT Authentication

Databases : MongoDB, MySQL

Cloud & Tools : Git, GitHub, Postman, Azure (Basics), Cloudinary, Power BI

Other : MVC Architecture, Razorpay Integration, API Design, OOPs, DSA

Projects

VillaVista | *Full Stack Vacation Rental Web App*

Sep 2024 – Jan 2025

- Developed a full-stack vacation rental platform using React, Node.js, Express.js, and MongoDB with end-to-end booking workflows.
- Designed and implemented secure RESTful APIs with JWT-based authentication and role-based access control.
- Integrated Razorpay payments, email notifications, PDF ticket generation, and Cloudinary-based image storage.
- Focused on scalable backend architecture, optimized API performance, and responsive frontend design.
- Deployed application with environment-based configuration and cloud hosting for production readiness.
- [GitHub](#) — [Live Demo](#)

SolveSmartly | *Personalized Doubt-Solving Platform (MERN Stack)*

Feb 2025 – Mar 2025

- Developing a MERN stack-based platform to resolve academic and technical doubts using text and image inputs.
- Implemented OCR-based image processing to extract and analyze user-submitted queries.
- Designed MongoDB schemas and backend services to support scalable doubt search and management.
- Building admin dashboards, video and PDF-based responses, and secure payment workflows.
- Emphasized clean architecture, modular API design, and production-ready scalability.

Experience

Power BI & Cloud Intern

Jan 2025 – Mar 2025

Kasnet Technology Pvt. Ltd.

- Built interactive Power BI dashboards to analyze sales, revenue trends, and business performance metrics.
- Developed data visualizations used by managers and analysts for decision-making.
- Gained hands-on exposure to cloud platforms through Microsoft Azure services including virtual machines and storage.
- Strengthened understanding of real-world cloud adoption and data-driven business workflows.

Education

Bachelor of Engineering (B.E.) in Information Technology

Graduated: 2026

DY Patil College of Engineering, Akurdi, Pune

CGPA: 8.83 / 10

Higher Secondary Certificate (HSC), Class XII

2022

Bhausaheb Gunjal Patil Sahyadri College, Sangamner

Percentage: 79.6%

Awards & Certifications

- **Microsoft Azure Fundamentals (AZ-900)** – Certified by Microsoft (2025)
